Mr. LeRoy Carlson
U.S. Fish and Wildlife Service
Colorado Field Office
730 Simms, Suite 290
Golden, Colorado 80401

Dear Mr. Carlson:

The U.S. Department of Energy, Rocky Flats Office (RFO), acting in the capacity of Lead Federal Agency for the Standley Lake Protection Project (SLPP) requests the U.S. Fish and Wildlife Service provide RFO a list of species of concern for the SLPP project area.

Enclosed is a copy of a U.S. Geological Survey map, scale 1:50,000, on which is traced a rectangular polygon. The polygon is the geographical area within which, under the current available information, the project may potentially affect Federal-listed threatened and endangered species. The UTM coordinates for the four corners of the rectangular polygon are as follows:

NE Corner: x=491 095
y=4 421 267

NW Corner: x=476 410
y=4 421 197

SW Corner: x=476 469
y=4 409 962

SE Corner: x=491 069
y=4 410 010

Please contact Ms. Gail Hill, (303) 966-3424 if you have questions or require further information.

Thank you for your assistance. The Department of Energy, Rocky Flats Office appreciates coordinating its efforts with the U.S. Fish and Wildlife Service.

Sincerely,

James K. Hartman
Assistant Manager for Transition
and Environmental Restoration
